Reference: Accredited Contractor Program - High Achievement

Dear David,

Re: BP Accredited Contractor Program (ACP) – High Achievement Certificate

Main: 03 9268 4111

BP is one of the world's most distinctive companies in terms of Health, Safety, Security and Environmental (HSSE) performance. It is a reputation for which we will not compromise. Our goals in HSSE are simply stated - No accidents, No harm to people, No damage to the environment. As an important business partner you have a key role to play in protecting BP's reputation and promoting a safe place of work and a safe work environment.

To assist us in meeting our goals we conduct the Accredited Contractor Program (ACP) nationally. This program is designed to appraise our contractor's HSSE management systems to provide us with assurance that whilst engaged by BP our contractors are working to a required standard in HSSE. The program encompasses our business units and also includes BP subsidiary and associate companies such as Castrol Australia Pty Ltd.

Your organisation has recently participated in the ACP and I have received advice from KRS Resource Management Pty Ltd (BP HSSE Consultants) that your organisation has exceeded our benchmark HSSE assessment score and as such they have recommended that your organisation be awarded with a High Achievement certificate.

I concur with their recommendation and would like to take this opportunity to thank-you for your participation in the program together with the diligence shown in attaining such a high HSSE assessment score.

Once again congratulations and we look forward to continuing our business relationship.

Yours truly

BP AUSTRALIA PYT LTD
