MALAGA WA 6944

To whom it may concern,

Building Solutions asked me recently to provide a reference for our building in Boulder completed by them in June 2011 which I'm happy to provide.

Building Solutions were engaged to carry out a two stage works program that also enabled the Ausdrill Ltd Kalgoorlie branch to continue normal operations with minimal interruptions.

During this process and in my opinion they demonstrated excellent organisation abilities including obtaining all necessary Approvals of Occupancy, conducted works timely and more importantly safely whilst our team continued their duties.

Lastly the Workshop and Offices were completed to our high standards, came in as per the budget and upon reflection maintenance has been minimal since it was finished.

In short.....Well done on another building for the Ausdrill Group.

Yours Sincerely,

Brian Mann
GENERAL MANAGER
