To the Team at Building Solutions

In 2012 we awarded our building project contract to Building Solutions - a build comprising approx 1,900 sq meters for a three unit showroom development in Boulder Rd Kalgoorlie

We found Marcus Kotsoglo and David Guille, the owners of Building Solutions, very committed to the development in every way from meeting on design, council & planning issues thru to building detail and final product.

At all times Marcus and his team, including the very efficient Marisa Shepherdson, worked on site and from their office on overall details as part of the management service and all had a friendly, respectful, efficient & helpful manner.

Marcus has a great attitude to problem solving the issues involved with such a large project and we highly respect him for his conduct and help prior to and during building. He was able to beat the expected build time, and deliver the building early.

We are delighted with the finished product, and we now have high quality fully let showrooms in Boulder Rd Kalgoorlie.

We recommend having Building Solutions quote and build your next project and we will certainly have them quote and build our future projects.

Kind Regards

Robert (Bob) Paterson
